

**Replacement Spring Kits
for your maintenance efforts**

WSPGKIT12

GE 2X Winergy - Kit Contents

9 of W61074881 Double phase springs

2 of W61074818

Brush springs wear out over time and should be replaced as a set.

Spring force may measure correctly but dynamic response can be sluggish

Springs should be replaced every 3 to 5 years as a matched set

Prevents uneven brush pressure and selectivity

One box in the lift bag with all needed springs for one generator
